About K-FORM Screed Rails

K-FORM UPVC Screed Railing provides the construction industry with an economical, efficient and environmentally friendly alternative to steel and timber formwork.

Made from 100% recycled materials, K-FORM is lightweight, durable and does not require removal after placement of concrete. It is easily cut to length on site and has pre-drilled holes in the vertical face for placing steel dowels bars and in the base for anchoring. K-FORM's patented design features a removable top strip for joint sealing and its unique end clips allow for quick and easy installation.

Intended to be used with all types of screeds including; twin beams, Roller Strikers and Vibro Strikers, etc. K-FORM's K135 and K85 sacrificial railing replaces steel forms where joints are needed.

K-FORM K135 Screed Rail for Slab thickness 150mm - 225mm

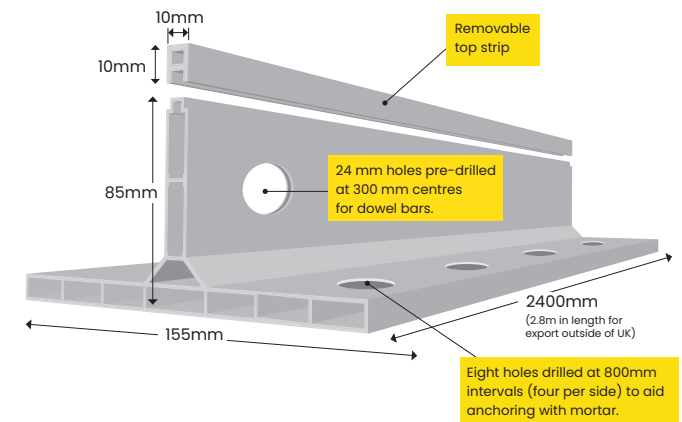

K-FORM Screed Rail Top Strip Angle Joint

Top Strip Angle Joints integrate seamlessly with K-FORM K85 and K135 Screed Rails. They provide a clean and tidy joint detail at intersections and should be used when it is intended to leave the topstrip in place after pouring.

K-FORM K85 Screed Rail for Slab thickness 100mm - 140mm

K-FORM Screed Rail 25mm Extension Strip

- Allows increase in height of 25mm
- Integrates seamlessly with K-FORM Screed Rails
- Compatible with K-FORM top strip
- Fast and easy clip on design
