

Knudsen Kilen

Wedges

Wedges

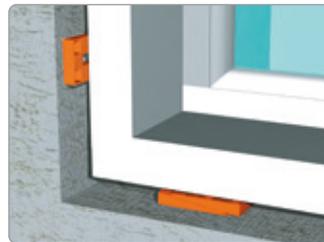

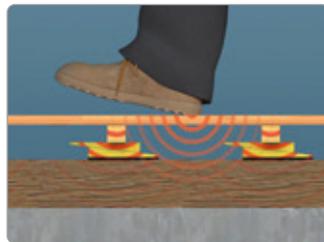

-for blocking up floors, assembly and distance levelling

- EPD verified
- Tested for compressive load
- Documented lifespan of min. 75 years
- Does not split when piercing nails or screws
- 100% recyclable plastic
- Not affected by moisture, rot or fungus
- No toxic smoke in case of fire
- Sharp, staggered saw teeth provide accurate and non-slip clogging - also laterally

The history of Knudsen Kilen began more than 50 years ago with the world's first plastic wedge, the yellow wedge. Since then, more wedges have been added - all of them are versatile and practical and made from a durable and 100% recyclable plastic that is designed to provide accurate modular building of joist floors and leveling of e.g. door and window frames and much more.

The wedges provide great flexibility, are easy to handle and are resistant to moisture, which makes them suitable for both indoor and outdoor use.

All Knudsen Kilen products have a documented lifespan of at least 75 years.

	H	W	L	Max kg		Pcs / Carton / Pallet			Item Number
